## PROFILE INFO

I am a backend developer with a lot of experience in developing applications, such as web-based applications and REST API. I am proficient in several programming languages including PHP, Golang and Javascript. I am very familiar with Laravel, Lumen and CodeIgniter for PHP frameworks, and I also master MySQL and PostgreSQL for database developments. In doing my job, I always conduct good coding habits, clear structure, strong logic, and low code redundancy. In addition to these skills, I am good at problem solving, able to work in a team, and creative.
